These athletes must all have qualified according to the system described below.

Athlete Eligibility

Athletes must have signed and submitted the Athlete Eligibility Condition Form.

Qualification System

Qualification period: March 1st, 2018– April 30th, 2019. **

**The following competitions being held outside of the stated qualification date range are also specifically approved for qualification: 2017-Central American Games, Managua, Nicaragua, 2018-UANA Swimming Cup, Coral Springs, Florida.

As Host Country, Peru automatically will qualify 18 male and 18 female competitors.

Each National Olympic Committee (NOC) may use proven swim times attained during the qualification period of those swimmers who have met the qualifying standards established by the Union Americana de Natación (UANA) for Lima 2019 Pan American Games at a competition recognized by the Federation Internationale de Natation (FINA) from the official list of approved qualifying competitions for the 18th FINA World Championships, Gwangju, Korea.

The priority order for qualification and selection into the Pan American Games will be:

1. All athletes who have achieved an “A” time standard (see chart on page 5) will be invited to compete. For any NOC to enter two athletes in an individual event, both athletes from that NOC must have equaled or bettered the “A” time standard in that event.
2. Universality athletes will be invited to compete. The universality rule applies to those NOCs that do not have athletes with either an “A” or “B” qualifying time, or NOCs that have no athletes selected for the LIMA 2019 Pan American Games through the online selection process. These NOCs are entitled to have one male and/or one female athlete entered in the Pan American Games. Universality athletes will be selected separately by gender.

An NOC that has qualified one swimmer with either an ‘A’ or ‘B’ standard time and has been invited to compete, that NOC through the universality system may enter another swimmer of opposite gender through the UANA OME system.

3. Relay-only athletes will be invited to compete. NOCs entering relay teams may enter a maximum of two relay-only athletes per gender, as part of their team. Relay-only athletes will be considered as part of the per-team quota of 18 men and 18 women.
4. Athletes who have achieved a “B” time standard (see chart on page 5) will be invited to compete until the quota of athletes for the LIMA 2019 Pan American Games is met. If more than 26 spaces remain after the addition of ‘A’ qualifiers, ‘B’ standard athletes will be selected by adding the next fastest B standard athlete to each event until less than 26 quota spots remain. Additional ‘B’ athletes will then be added one at a time to individual events based on FINA point rankings until the quota of athletes has been achieved.

If an NOC has an athlete with “B” qualifying standard, but that athlete is not invited to compete, then that NOC may be permitted to enter athletes via the universality rule (step 2, above).

Under the universality rule, each NOC is guaranteed an entry of one male and/or one female athlete, each of whom may enter a maximum of three individual events, without having a qualifying time for any event. Should an NOC not qualify any athletes during the selection process, it must identify which athletes are to be considered for the universality positions within the online meet entry system (OME). An NOC that enters universality athletes at the LIMA 2019 Pan American Games is not eligible to enter mixed gender relays and therefore cannot enter relay-only athletes.

Once a swimmer has qualified in at least one individual event and has been invited to the LIMA 2019 Pan American Games as an “A” or “B” athlete, that athlete may enter and swim other individual events up to a maximum of five individual events, without having a qualifying time in those other events, provided that NOC has an opening in that specific event. The rule of maximum of two entries per event per NOC still applies, and these athletes cannot enter an event that already has one athlete from that NOC in that event (unless both athletes have “A” qualifying times in that event).

These additional events must be entered during the OME process described in this document, and no additional event entries will be allowed after the entry deadline.

Relays

Each NOC may enter one team in each relay event, provided it has at least two athletes with “A” or “B” standards that have been invited to compete in the LIMA 2019 Pan American Games. Each NOC will be allowed a maximum of two relay-only swimmers per gender. All other relay participants must be entered in at least one individual event. Relay-only athletes are only eligible to swim in the relay(s) and will not be permitted to swim in any individual events. A relay only athlete must participate in at least one relay.

Relay-only swimmers entered into the Pan American games must swim either in the heat or final of a relay event. Should a relay-only swimmer not compete, this will lead to the disqualification of the respective team. Further, if a relay-only swimmer does not compete in the heats of a relay in which the NOC fails to qualify for the finals, the relay will be disqualified. If a relay-only swimmer could swim in multiple relays, but does not compete in any for which he/she is eligible, the final relay for which he/she was eligible will be the relay that is disqualified.

If a relay-only swimmer is medically unable to compete, they may be excused from the requirement to participate in a relay. A member of the PASO Medical Commission or their Designee will be present at heats and finals and will be the independent physician empowered to make decisions about relay-only athlete participation.

The composition of a relay team may be changed between the heats and final of an event. An NOC that enters universality athletes at the LIMA 2019 Pan American Games is not eligible to enter mixed gender relays and therefore cannot enter relay-only athletes.

UANA Online Meet Entry System

Swimming entries to the LIMA 2019 Pan American Games will first be processed by UANA through its OME system. UANA will provide each NOC with an OME system username and password and an OME users’ guide (English and Spanish) for the LIMA 2019 Pan American Games. This information will be distributed on January 15th, 2019.

The OME entry system opens at 12 noon (CT) on February 14th, 2019 and closes at 23:59 (CT) on May 16th, 2019.

Confirmation of Quota Places

UANA will notify PASO and all NOCs by June 24th as indicated in the timetable below of athletes who have been selected to compete in the LIMA 2019 Pan American Games.
